04th January, 2019

Dear Colleagues,

At the outset my heartiest congratulations to the officers of 2009 batch on their promotion to the grade of Joint Commissioner. My best wishes to each one of you for your future endeavours. I am also happy to inform that the regularization of Joint Commissioner of 1993-96 batches has been finalized and the seniority list is being uploaded on website. This paves the way for regularization to the grade of Commissioner.

I would like to inform that all the Notifications, Circulars and Orders implementing the recommendations, save those pertaining to law amendments, made during the 31st meeting of the GST Council have now been issued. Some important changes in the rules and date extensions have been given effect through these Notifications, Orders and Circulars. An important trade-friendly measure which has been introduced is the facility to upload all supporting documents/invoices online along with the filing of the refund claim in FORM GST RFD-01A. I request all of you to give wide publicity to this measure in print/electronic media (including those in vernacular languages) which is expected to go a long way in further facilitating refund claimants. The next meeting of the GST Council is scheduled to be held on 10th January, 2019. Several important issues are likely to be discussed in this meeting, which will be preceded by a meeting of the Hon'ble GoM constituted to look into MSME related issues. I will update you on the outcomes subsequently.

The CBIC has issued a comprehensive Circular 1/2009-Cus dated 2nd January, 2019 to address the difficulties being faced in automatic sanctioning of IGST refunds due to SB006 error. The circular delineates the roles and responsibilities of each of the stakeholders in the process flow of sanction of IGST refund claim. A grace period of up to 31st January, 2019 has also been provided in the Circular for filing of EGMs of cargo related to past cases without attracting penal provisions. Officers should take action forthwith so that the refunds held up due to EGM related errors could be sanctioned at the earliest.
